

# Muhammad Usman

Full Stack Developer / Laravel Developer at  
Paramount Software Solutions (pvt) Ltd

With over 2 years of experience as a web application developer, I specialize in PHP Laravel web and back-end development, third-party API integration, and automation. My expertise covers web and mobile applications, scripting, web scraping, chatbot development, and RESTful APIs. I am proficient in various PHP frameworks, including Laravel, Codeigniter, React.js and Express.js, with a strong preference for Laravel. My project experience includes developing Real-Estate Management, Lead Generation, Fund Management, Accounts Management with all Reports, and all types of CRM systems to Automate Human Life . I have also integrated Google Maps and marker clustering through APIs, showcasing my ability to work with third-party services.

am enthusiastic about bringing my skills and experience to new web application development challenges. Looking forward to working with you!

## Work History

Paramount Software Solutions (pvt) Ltd	Feb 2024 - May 2024 (3 months)
<b>Full Stack Developer / Laravel Developer</b>	<b>Lahore, Pakistan</b>

I started my career as a Front-End React Developer, creating interactive and user-friendly interfaces. Driven by a desire to understand the full web development stack, I expanded my skills to include back-end technologies, transitioning to a Full-Stack Laravel Developer.

Now, I integrate front-end and back-end development, using React and Laravel to build robust, scalable web applications. My role involves designing APIs, managing databases, and ensuring seamless user experiences. This journey has enriched my technical skills and problem-solving abilities, enabling me to contribute effectively to innovative projects.

Fiver	Aug 2023 - May 2024 (9 months)
<b>Full Stack Developer / Laravel Developer</b>	<b>Lahore, Pakistan</b>

1. Laravel Magic: From crafting sleek APIs to building robust web apps, I've got the skills to make your Laravel dreams a reality. Let's take your

project to the next level!

2. CodeIgniter Guru: Got a CodeIgniter project that needs some love? I've got you covered! Whether it's debugging or full-blown development, I'll get it done right.
3. PHP Wizardry: Need custom PHP solutions that shine? Count on me to deliver clean, efficient code that powers your project like never before.
4. Bug Busting: Bugs bugging you? Not anymore! I'll hunt down those pesky bugs and squash 'em for good, so your project runs smoother than ever.

## Projects

### Real Estate Management System

Feb 2022 - May 2024 (2.3 years)

**Company:** Paramount Software Solutions (pvt) Ltd

<https://development.paramountech.pk/>

**Tools:** PHP, Laravel, Bootstrap, MySQL, Ajax, jQuery, API Integration, WhatsApp, Email, Firebase, Pusher Integration

Our Real Estate Management System is a comprehensive platform designed to streamline the management of real estate properties. It provides an all-in-one solution for property owners, managers, and tenants, ensuring efficient and effective management of properties.

#### Key Features:

- **Property Listings:** Easily manage and update property listings with detailed descriptions, photos, and virtual tours.
- **Tenant Management:** Simplify tenant onboarding, track lease agreements, and handle tenant communications efficiently.
- **Maintenance Requests:** Allow tenants to submit maintenance requests online, with tracking and automated updates to ensure timely resolutions.
- **Payment Processing:** Securely manage rent payments, track payment history, and send automated reminders for due payments.
- **Reporting and Analytics:** Generate detailed reports on property performance, occupancy rates, and financials to make informed decisions.
- **Document Management:** Store and manage important documents, such as lease agreements and property deeds, in a centralized, secure location.
- **Mobile Access:** Access the system from any device, providing flexibility and convenience for property managers and tenants alike.

Our Real Estate Management System is designed to enhance operational efficiency, improve tenant satisfaction, and maximize the profitability of real estate investments. Whether you manage residential, commercial, or mixed-use properties, our system provides the tools you need to succeed.
